The school makes its facilities available to the community to hire. The letting may include complete or partial hire of the building, or a room with specific facilities.

- The terms and conditions of the letting will be provided to the hirer and the Letting Policy Contract signed once the terms are agreed. This contract alongside the terms and conditions will identify the specifics of the letting including any additional equipment, additional staff hours etc and where there will be an additional charge.
- The terms and conditions also specifically identify the responsibilities of the hirer and the school (e.g., in terms of health and safety of users).
- No letting will be agreed whilst the school is in operation within school hours to maximise the protection of children.
- Hiring of facilities will normally be at a commercial rate thereby making a surplus which will benefit the mainstream activities of the school.
